

# Embedding Videos from YouTube

For use with ANGEL

## *Step 1 – Getting information from YouTube*

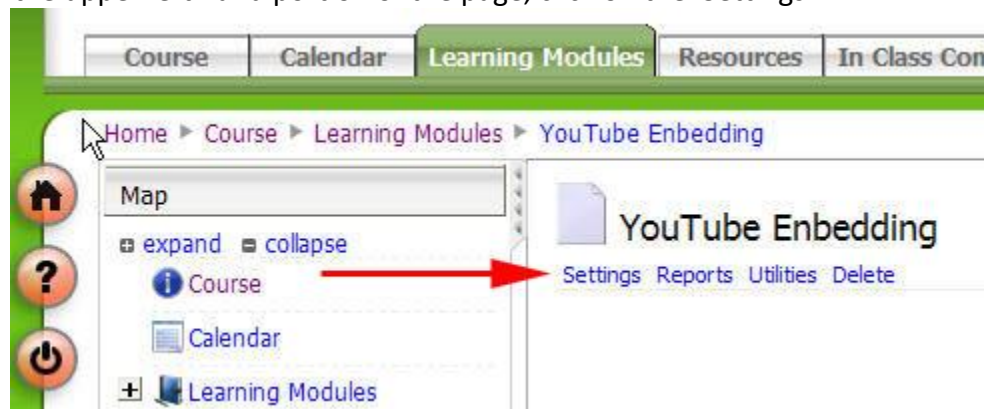

1. On YouTube, find the video you want to embed.
2. On the upper right hand corner of the page will be a textbox from which you can copy the code used from embedding.

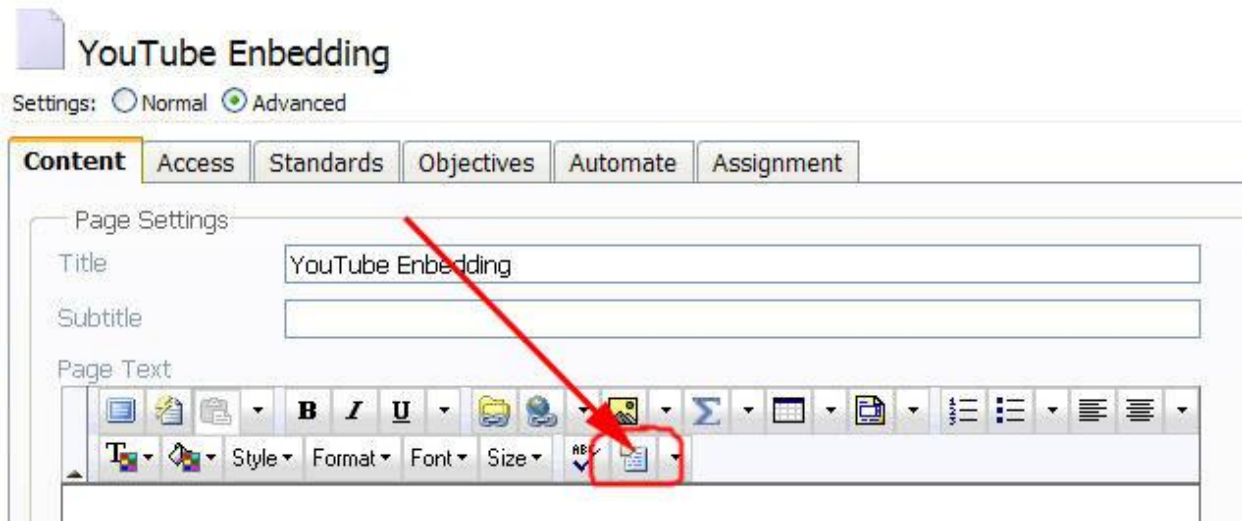

3. Highlight the textbox “Embed” with your mouse, click on Edit, then Copy.

## *Step 2 – Embedding the Video into ANGEL*

1. In ANGEL, navigate to the Learning Module you want to embed the video in.
2. On the upper left hand portion of the page, click on the ‘Settings’ link.

3. The page will open to the editing screen. Wait for it to finish loading then click on the 'Source' button.

4. This will convert the text box from 'What you see is what you get' (WYSIWYG) mode to the Source mode where you can paste in the text copied from Step 1.

5. Click the 'Source' button (Step 2.3) to revert back to WYSIWYG mode.
6. Edit page as needed, then click save as usual. Your YouTube video is now embedded into your ANGEL Learning Module.
